lowrymchristian@gmail.com | github.com/lmcowry

Skills

Learning: Javascript, jQuery, React, .NET Core

Competent: Python, C#, Google App Engine

Operating Systems: MacOS / OSX, Windows XP - 10

Happy to learn other languages, frameworks, and operating systems

Education

LaunchCode

- *LC101 – C# with .Net Core*
 - Learned Python, Google App Engine, Jinja2, and C# (April 2017)
 - Currently learning the Javascript material (Now)

Truman State University

- *M.A.E. in Secondary English Education* (May 2015)
- *M.A. in English* (May 2014)
- *B.A. in English: Concentration in Linguistics. Minor in Russian and Philosophy & Religion* (May 2012)

Project

MindVData

- Created an app that conveys complicated data in an intuitive way
- There are five codes made up of a random order of six colors. The user, through clues with each guess, attempts to logically deduce all five codes with as few guesses as possible.
- Written in Javascript with jQuery and Python with webapp2. Writing a persistent version using C# with .NET Core

christianlowry.com

- Built a website from scratch
- Remote production server on a Linode running Debian 8
- Local development server running Ubuntu 16

Work Experience

Cleveland, OH – *Moxie, the Restaurant* – Line Cook (April – September 2016)

Cleveland, OH – *Chipotle* - Kitchen Manager in Training (June 2015 – April 2016)
